

Étienne Peillard

Associate Professor - IMT Atlantique

IMT Atlantique, DAPI - PACCE team, LS2N (UMR CNRS 6004)
Associate member, CNRS IRL CROSSING (France-Australia)
4 rue Alfred Kastler, 44300 Nantes, France - +33 2 51 85 10 19
etienne.peillard@imt-atlantique.fr - www.etiennepeillard.com - [Google Scholar](#)

Researcher in Virtual and Augmented Reality, Human-Computer Interaction, and human factors. My work examines spatial and body perception, augmented affordances, embodied interaction, and cooperation between humans and autonomous systems.

Academic appointments

- Associate Professor - IMT Atlantique, Nantes Aug. 2026-present
 - DAPI department; PACCE team, LS2N (UMR CNRS 6004); associate member, CNRS IRL CROSSING.
 - Research and teaching in HCI, immersive systems, interface design, and human factors.
- Associate Professor - IMT Atlantique, Brest Dec. 2020-Jul. 2026
 - INUIT team, Lab-STICC (UMR CNRS 6285).
 - Scientific leadership and development of the CEXI-HA experimental platform.
- Doctoral contract - Centrale Nantes / Inria Oct. 2017-Nov. 2020
 - Perception and interaction in Augmented Reality; Hybrid team and AAU-CRENAU.
- Final-year internship - CLARTE Apr.-Sep. 2017
 - Industrial and collaborative Virtual and Augmented Reality applications.
- Research project - Centrale Nantes Sep. 2016-Mar. 2017
 - Accommodation-vergence disparity and perception in Augmented Reality.
- Research project - Université Paris 13 / UDPN Jan.-Feb. 2016
 - Critical evaluation of digital heritage applications in French museums.
- Interdisciplinary project - Université de Nantes / LS2N Oct.-Dec. 2015
 - Interactive AR applications for cultural mediation and archive data.
- Second-year internship - LS2N Apr.-Sep. 2015
 - AR applications for technical and heritage objects.

Education and qualifications

- PhD - Centrale Nantes (Architecture and Urban Studies) 2017-2020
 - Thesis: Toward a Characterization of Perceptual Biases in Mixed Reality: A Study of Factors Inducing Distance Misperception.
 - Supervisors: Guillaume Moreau, Ferran Argelaguet, and Jean-Marie Normand; defended 24 November 2020.
 - Engineering degree - Centrale Nantes 2013-2017
 - General engineering curriculum; Virtual Reality major; Research major; degree equivalent to a Master's degree.
 - Classes préparatoires - Dijon 2010-2013
 - Intensive mathematics, physics, and chemistry curriculum.
- Habilitation to direct research (HDR) in preparation; defense planned for late 2026 or early 2027.

Research leadership and projects

- ANR JCJC PAEIAR 2025-2028
 - Principal investigator; perception of affordances and embodied interaction in Augmented Reality, with the University of Western Brittany.
- CEXI-HA experimental platform 2021-present
 - Scientific lead and project manager for IMT Atlantique's immersive interaction, human factors, and augmented-human platform.
- ANR ASTRAL 2024-2027
 - Avatars in Augmented Reality, with Clarté, Inria Rennes, and Centrale Nantes.
- PERCEMOA 2024-2027
 - Body perception, morphology, embodiment, and body-image applications in Augmented Reality.
- Urban night-lighting perception 2025-2028
 - CIFRE PhD project with L'Observatoire de la Nuit, AAU-CRENAU, and Lab-STICC.
- AR perception: laboratory to real-world applications 2025-2028
 - CROSSING cotutelle PhD with the University of Adelaide; MSCA COFUND AUFRANDE.
- ASPIRE Seamless 2023-2027
 - Perceptual continuity between physical reality and AR, with the University of Tokyo.
- Deep-space rover teleoperation 2024-2027
 - AI perceptive assistance; CROSSING joint PhD with the University of Adelaide, MSCA COFUND SEED.
- UniSA / Naval Group PhD project 2024-2027
 - CROSSING joint PhD on 4D narrative visualizations for marine-drone mission reporting.

Awards

- Best Conference Paper Award, IEEE VR 2019.
- 1st prize, IEEE VR 2019 3DUI Contest.

Doctoral and research supervision

Ongoing PhD co-supervisions

Kingsley Stephens - Jun. 2024-May 2027

Thesis: 4D Narrative Visualizations for Marine-Drone Mission Reporting

Juri Yoneyama - Oct. 2024-Sep. 2027

Thesis: Perception and Interaction with Real and Virtual Hands and Objects in Augmented Reality

Thesis-related publications: 2, 5, and 11.

Nazial Kadir - Oct. 2024-Sep. 2027

Thesis: AI Perceptive Assistance During Teleoperations of Rovers in Deep Space

Marie-Cécile Léculier - Nov. 2024-Oct. 2027

Thesis: Study of Body Perception and Morphology in Augmented Reality

Thesis-related publications: 3.

Min Ni - Feb. 2025-Jan. 2028

Thesis: Enhancing Perceptual and Cognitive Processes in Augmented Reality Studies to Real-World Applications

Thesis-related publications: 4.

Anthony Le Gourriérec - May 2025-May 2028

Thesis: Perception and Representation of Urban Night Lighting Ambiances in Virtual Reality

Thesis-related publications: 10.

Yutaro Tanaka - Jan. 2026-Feb. 2029

Thesis: Perception of Affordances and Embodied Interaction in Augmented Reality

Thesis-related publications: 2.

Completed PhD co-supervisions

Aymeric Hénard - defended 5 Dec. 2024

Thesis: Perception and Comprehension of Robot Swarms: Self-Organisation Mechanisms, Human Perception, and Localised Visualisations to Understand Fragmentations

Thesis-related publications: 7, 17, 20, 21, 22, and 29.

Julien Cauquis - defended 2 Jul. 2025

Thesis: Optimizing Sensory Feedback and Manual Interaction Efficiency within XR Experiments

Thesis-related publications: 8.

Thi Thanh Hoa Tran - defended 16 Feb. 2026

Thesis: Improving Autonomous Vehicle Drivers' Confidence via Augmented Reality Visualization of Artificial Intelligence Decision-Making Context

Thesis-related publications: 1, 13, 15, and 18.

Post-doctoral researchers

Marie Jarrell - Nov. 2021-Oct. 2023

Anjara Nobby Rakotoarivelo - Jan.-Dec. 2023

Research engineers

Jérémy Donjat - Dec. 2022-May 2023

Pierre Fayol - Feb.-Dec. 2024

Aymeric Hénard - Dec. 2024-Nov. 2027

Julien Ganne - Jun. 2026-May 2027

Master's students

Guyllian Gomez - Jan.-Jul. 2021

Lucas Bernin - Jan.-Jul. 2022

Hugo Da Maia - Apr.-Aug. 2022

Daniel Ledoussal - May-Jun. 2022

Nolwenn Paluet - Mar.-Aug. 2023

Clément Jézéquel - Mar.-Aug. 2023

Ambre Daigremont - Apr.-Jul. 2023

Georges Simbe - Jan.-Apr. 2024

Taha Lamine - Feb.-Aug. 2024

Marie-Cécile Léculier - Feb.-Jun. 2024

Clémence Cunin - Mar.-Aug. 2024

Lory Somphonphakdy - Apr.-Aug. 2024

Lucas Thomesse - Apr.-Sep. 2024

Lilas Privateer - Mar.-Aug. 2025

Titouan Aline - Mar.-Aug. 2025

Ewan Durand - Mar.-May 2025

Gauthier Bertram - Apr.-Sep. 2025

Yutaro Tanaka - May-Oct. 2025

Guilhem Mas - Feb.-Aug. 2026

Ewan Durand - Apr.-Sep. 2026

Efflam Rol - Apr.-Aug. 2026

Samuel Lallemand - Apr.-Aug. 2026

Teaching

- IMT Atlantique - Engineering program, Nantes Aug. 2026-present
- Teaching in the DAPI department; responsible for the Front track of the FIL apprenticeship program.
- Human-Computer Interaction, interface design, and interactive systems.
- IMT Atlantique - Engineering and Master's programs, Brest Sep. 2021-Jul. 2026
- Co-responsible for the RVSI track and RVRA teaching unit in the SIIA Master's program.
- Responsible or co-responsible for RVRA, ECoTI, FHEES, LogIHM, TERV, and RAUG teaching units.
- VR/AR, HCI, human factors, experimental methods, immersive visualization, databases, interface design, and project-based learning.
- Regular participation in project and internship juries; supervision of Master's, research, company-sponsored, and interdisciplinary projects; apprenticeship tutoring.
- Centrale Nantes - Engineering program 2017-2020
- Algorithms and programming; computer vision and AR; Unity; advanced VR; industrial and application projects.
- École Polytechnique - AI and Advanced Visual Computing Master's program Feb. 2020
- Six-hour lecture and lab intervention on Augmented Reality.

International collaborations

- Adelaide University (formed in 2026 from the University of Adelaide and University of South Australia): cotutelle, PhD, and internship supervision through MSCA COFUND AUFRANDE and SEED; AR, autonomous-systems trust, digital anthropology, marine-drone visualization, and CNRS IRL CROSSING partnership.
- University of Tokyo / Institute of Science Tokyo: long-standing collaboration with Yuta Itoh; ASPIRE Seamless; PHC Sakura; six-month research stay.
- Beijing Institute of Technology: AR perception and virtual-shadow research with Yue Liu and Yuan Gao.
- AAU-CRENAU and L'Observatoire de la Nuit: spatial perception, urban digital models, and CIFRE PhD partnership.

Academic service

- IEEE VR: reviewer since 2020; Program Committee since 2021; Tutorial Chair in 2025 and 2026.
- IEEE ISMAR: reviewer since 2019; Program Committee since 2020; organizing committee member in 2017.
- ICAT-EGVE Program Committee since 2022; ACM VRST Program Committee in 2022, 2025, and 2026; ACM SAP Program Committee in 2026.
- Reviewer for Presence, IEEE TVCG, Computers & Graphics, ACM TAP, and Frontiers in Virtual Reality; external reviewer for SIGGRAPH 2026 posters.
- Organizer of PERCXR (2020-2022), Seamless Reality workshops (IEEE VR 2024-2026; IEEE ISMAR 2025), and NII Shonan Meeting No. 242 - Seamless Reality (2026).
- IEEE VR 2023 organizing committee; facilitator of the Interaction working group within CNRS IRL CROSSING; communications and website officer for GDR IG-RV until 2026.

Institutional responsibilities and outreach

- Responsible for the Front track of IMT Atlantique's FIL apprenticeship program and associated teaching units (since 2026).
- Scientific lead and project manager for CEXI-HA; co-deputy for teaching in the Computer Science department (2023-2026); co-responsible for RVSI and RVRA (2022-2026).
- Student and doctoral representative on Centrale Nantes boards (2014-2020); AAU Laboratory Council member (2019-2020).
- Public engagement: Pint of Science 2018; Innovatives SHS 2019 presentation of the Coraulis project.

Additional information: interests include fencing; Go (French federation instructor and president of the Brest club); travel; photography.
